

Welcome to the DEN!

The DEN Online Community is a new platform, embedded within Discovery Education's services, that enhances educators' ability to learn, share, and connect with peers from around the world.

**To access the DEN Online Community, follow these specific instructions:**

1. Log into your Discovery Education account as you normally do.
2. Click on the DEN button in the navigation menu as shown below.

3. You will be asked to enter your name and email address in order to register for the DEN Online Community. This is a one-time registration.
4. For future visits to the community site, login to Discovery Education and then click on the DEN button in the Global navigation menu.

**Here are a few suggestions to get you started with the DEN Online Community**

- ❑ **Complete your profile.** Complete your profile by adding your photo, a bio, contact details, interests, grades, and subjects. Here is a [profile checklist](#) to help you along.
- ❑ **Join groups.** You have automatically been added as a member of DEN Friends, our primary DEN discussion group. We encourage you to also join groups related to the Discovery Education Techbook you use.
- ❑ **Reply to a discussion.** In the DEN Friends group, consider replying to the [Welcome thread](#). Introduce yourself and share what you are passionate about. Don't stop there. Reply to other posts. Keep the discussions going.

I look forward to seeing your contributions in the DEN!
